

12/5/07 from Tom Dunkelman

Christie Orosco, the Environmental Coordinator for the Rincon tribe, called my yesterday regarding continuing concern over the lack of cleanup at the Mushroom Express facility. I spoke with the owner of the facility today - Marvin Donlus (760) 749-3328. In the past Mr. Donlus indicated that he was planning to hire a contractor. This morning, Mr. Donlus indicated that San Diego County would be removing the hazardous materials from his facility. Could one of you guys follow up with Nick or someone else at San Diego County to find out if this is really happening?
